Dear Sir/Madam

The opportunity afforded by the development of Hanchett End Business Park

I was fortunate to attend the Best of Haverhill event at Days Inn last Thursday and find out more about the proposal for the Hanchett End Business Park from Nick Rumsey of Carisbrooke Developments. An exciting development for Haverhill, both in terms of broadening and increasing employment opportunities as well as bringing additional commerce for existing local businesses.

It will be very challenging to attract public sector finance in the current climate, so creative solutions will need to be found and possibly some flexibility exercised in order to realise this as part of the Vision for Haverhill.

Nick is intent on making the project work for Haverhill and deserves wholehearted support from all with an interest in the town's prosperity.

Yours sincerely

Martyn Wagner
